## 1. Abstract

DAE coin is a decentralized cryptocurrency using network having its own blockchain platform to run smart contracts and applications exactly as per program without any possibility of censorship or third party interference. DAE is clone of Ethereum. By applying the technology to a series of real world use cases, with the goals of supporting the online platforms and technology available we have come up with the idea of DAE coin. DAEFROM platform is a first step to becoming part of a new movement mining when each only mined coin will have pair as DAEFROM token in ratio by blockchain. The motto is to provide a digital crypto platform for easy and stable mining, and then tokens for new social network DAEFROM Society.

DAEFROM platform provide transparent environment, reliability and integrity to various industries like ecommerce, Software Development, Online Education, Bill Payments and All Types of Tickets Booking (Movie, Bus, Train, Flight), Hotel Booking, Transportation, Social Media, Banking, MLM and the Marketing and Advertisement Industry.

Anybody from any Business Sector Can Join us as Partner, Contributor, Franchise, Token Owner or user to Earn Maximum Benefits of DAEFROM Blockchain Technology. DAEFROM platform allows users to Generate Their Own ERC-20 Token Coins by Creating Smart Contracts which work as an agreement between all involved users. The platform has its own currency DAE, which can be used to Generate Token Coin. In genesis block was mined 50 million DAE coins, which will burn for development, maintenance, PR and for redemption of DAEFROM tokens.

## 2. Introduction

This Whitepaper provides a brief explanation about DAE coin and DAEFROM token and DAEFROM platform. Company's goal is to provide a mechanism which helps all kinds of crypto, Social Media, Advertising and other Business service providers, products providers, consumer product Manufacturers and users in DAEFROM platform to unify and create a common community where all contributors will reward for their contributions in the form of cryptocurrency incentives. These incentives and rewards will encourage new users to participate in DAEFROM Platform to contribute and earn massive Income. DAEFROM platform is industry specific and capable to create smart contracts and allowing everybody to generate their own ECR-20 Crypto Tokens and mining DAE coin as a crypto-currency coin. The price of DAE coin and DAEFROM is community controlled. As the number of users and ECR-20 tokens increases, value of DAE coin and DAEFROM token should be increase proportionally.

## 3. The Audience

DAEFROM platform is open to anybody for mining crypto currency DAE and anybody who is requiring a smart contract-based transaction service, our primary target audience will be:

- Mining community.
- Social network community
- Consumers who want to avail quality services from genuine providers
- Marketers who want quality leads and true ROI.
- Advertisers who want to advertise without wasting precious time and resources

## 4. DAE Coin

### a. What is DAE Coin?

DAE coin is mining coin on DAEFROM cryptocurrency network having own blockchain platform to run smart contracts and applications exactly as per programmed without any possibility of censorship or third party Interference.

DAEFROM is clone Ethereum with own features. DAE coin is a first step to becoming part of a new movement of mining users and users in social networks. The motto is to provide a digital crypto platform for easy, safe and available to everyone. In near future each mined DAE will have pair in DAEFROM token based on mined wallet, the reward will be retroactive.

### b. Difficulty level and rewards of DAE Mining:

DAE coin network's difficulty adjusts automatically as more miners join the network. It also depends upon the hash rate of the miner. At a constant rate of approximately 15 seconds per block.

### c. Uncle Rewards:

For every successfully mined block, are 5 DAE rewarded.

### d. DAE Details:

DAE is clone of Ethereum with own futures with latest ethereum code till 1. August 2020.

### e. No Technical Knowledge or other tools needed:

A user would not need any technical knowledge or other technical tools like Geth, Meteor, or Mist to run the smart contracts.

### f. Smart Contract Templates:

There will be available smart contract templates at the user's dashboard. These will be always available and ready to execute. All you need to do is, log in and deploy the contracts.

### g. No Sync Delays:

Since DAE works directly with Ethereum, no third party software which is needed to sync smart contracts with the platform. This reduced the procedure delay, and the contracts get executed instantly.

### h. Customized Contracts:

Users can create their own contracts from scratch using DAE Coin.

## 5. The DAEFROM Tokens

### a. The Purpose of DAEFROM Tokens

DAEFROM Tokens is the token which is to be used for all transactions on the platform DAEFROM. It is there to ensure reward flexibility and ease of transaction for all interested parties at the platform. A user can decide the value and number of DAEFROM Tokens he is going to offer, and offer as many as he decides as long he has the requisite amount of DAEFROM Tokens in his/her wallet.

### b. Rewards Model

The platform implements a rewards model. Users mining DAE coin will get DAEFROM Token on his mining wallet and it will retroactive from 2Q 2023. Also will be providing mechanism for rewarding tokens by company directly.

### c. Value of FSC-Tokens

Value of FSC-Tokens, may be decided in three ways (as mentioned in the technology module), manual valuation (when the offering party sets the value of its DAEFROM Tokens manually, in terms of DAEFROM Tokens or fiat currency), DAE Coin based valuation, and fiat currency based valuation. As the community grows, the value of DAEFROM-Tokens will also go up.

## 6. Roadmap

- Born phase:  
4Q 2021 – created platform from ethereum blockchain, build the backbone DAEFROM network with DAE mining coin and DAEFROM token, implementing core engine, create testing pools.
- Testing phase:  
2Q 2022 - Unit Testing, Integration Testing, System Testing, and Acceptance Testing.
- Start of public mining and public business on markets:  
4Q 2022 - Create mining pools network. Start of public business and listing on one of top crypto market, start of pre-sale DAEFROM token.
- DAEFROM Token:  
2Q 2023 Start rewarding mined coins with the DAEFROM token, the reward will be retroactive. Create staking pool for token, establishing on one of top crypto market.
- DAEFROM Society:  
2Q 2024 – start testing phase of DAEFROM Society social network  
3Q 2024 – run public social network DAEFROM Society

## 7. Conclusion

DAEFROM is a first platform to empower social network, mining communities, advertisement, marketing industry. This platform encourages them to share their expectation from manufacturers and services providers through the smart contract system. DAEFROM provides genuine survey input, reviews, and client inquiries. DAEFROM will provide a platform for the launch of decentralized block-chain applications which will improve access social networks advertisement and marketing projects and data through block-chain technology. There is no outside agency controlling the DAEFROM system so all the prices within the platform will be community driven. DAEFROM play the role of an unbiased mediator, monitoring and transparently reporting back verified data to consumers and service providers.

## 8. Disclaimer

The whitepaper prepared by the company is not composed in accordance with, and is not subject to, laws or regulations of any jurisdiction which are designed to protect investors and it is for informational purposes only. The company does not offer to buy or sell any securities or to invest in any financial instruments through its websites or applications. DAE can be sold or purchased or transferred or requested to and from the other members in the community dealing with the DAE and DAEFROM as per their own terms and conditions at one's own risk. The company does not promote sale or purchase of the DAE and DAEFROM in fiat or regular currencies or any similar assets. The registration on the

DAEFROM website permits access to its services as per the DAEFROM Platform's terms and conditions. Registration is not intended to offer the holder any rights, or claims to any of the assets of the company or the DAE, DAEFROM or share in any profits that the company or the platform may achieve.
